Sports and Dance

The 54 m^2 dance and sports hall offers the ideal conditions for exercise and sports activities in a pleasant atmosphere. With its parquet flooring, a wall of mirrors and two separate changing rooms, the hall is suitable for a wide variety of classes and training sessions.

Whether it's dance, yoga, Pilates, self-defence, fitness or relaxation classes – the room is versatile and offers plenty of space for group sessions.

Facilities include a Teufel music system, chairs and exercise mats, which are available to users for the duration of the hire period.

Events

With a total floor area of 150 m^2 and parquet flooring, our function room can accommodate up to 100 people and is suitable for a wide range of events – dance events, conferences, lectures, concerts, choir rehearsals, workshops, seminars and other types of event.

Thanks to a movable partition, the room can be flexibly divided into two separate areas, which can be hired independently of one another. This creates a smaller area of the event space, measuring 58 m^2, which can accommodate around 50 people, and a larger area, measuring 70 m^2, which can also accommodate around 50 people. The partition provides good sound insulation when the room is being used for multiple purposes simultaneously and can also be used as a projection screen on both sides. When the room is used in its entirety, the partition also serves as a projection screen.

For presentations and events, a projector, a Teufel speaker system and a media trolley can be provided on request. A flipchart and a portable pinboard can also be made available by arrangement. Right next to the event room is a storeroom containing additional tables and chairs, which can be taken and used independently as required.

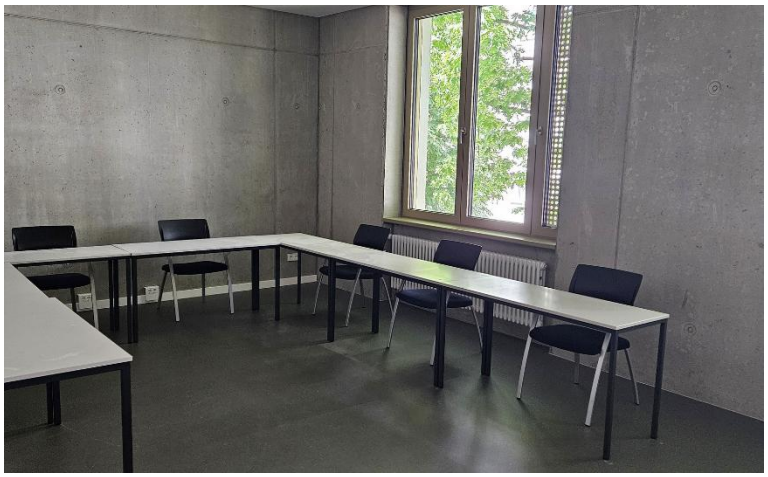
There is also a piano available in the main part of the function room, and you are welcome to incorporate it into your event.

Multi-Purpose-Room

The 62m^2 multi-purpose room offers space for up to 30 people in a cosy atmosphere and is ideal for meetings, workshops, creative activities, discussion groups, games evenings or club events.

Fitted with individually adjustable tables, comfortable seating and a piano, the room can be used flexibly for a variety of occasions. Its location right next to the café creates a pleasant and welcoming atmosphere.

The room also offers direct access to the ground-level entrance terrace of the community centre.



Seminar Room

The 37 m^2 seminar room can accommodate up to 20 people and is ideal for language courses, training programmes, seminars, workshops, as well as meetings and discussions.

The flexible layout allows the room to be tailored to suit different event formats. A projection screen is also available, and a projector, flipchart and portable pinboard can be provided on request.

Whether it’s regular courses, one-off workshops or club and team meetings – the seminar room provides the ideal setting for a wide range of educational and event programmes.

The room also has a washbasin.

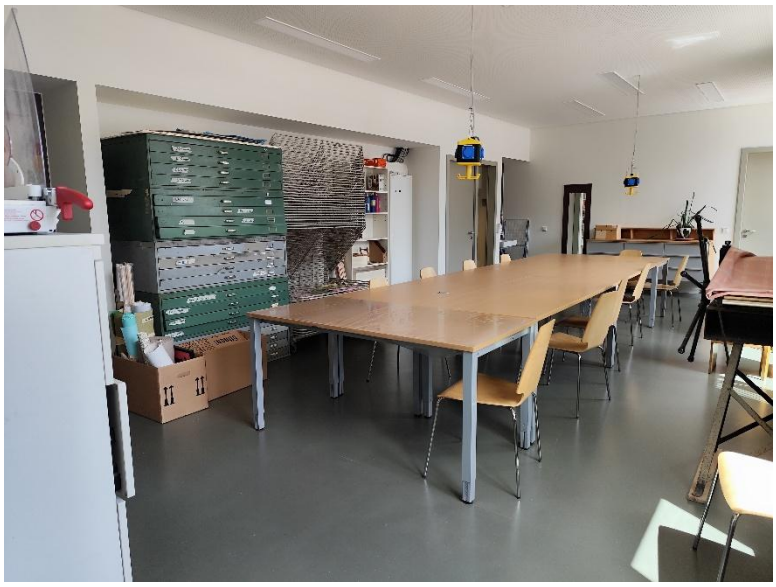
A Space For Socialising

The 96 m^2 community room on the upper floor can accommodate up to 30 people and is ideal for cookery workshops, club parties, social gatherings, workshops and community activities.

The space includes a fully equipped kitchen with a kitchen island, providing the ideal setting for events or parties. The kitchen is fitted with a hob, oven, fridge, microwave, dishwasher, sink and coffee machines, meaning that events centred around cooking and dining together can be held in comfort.

A particular highlight is the direct access to the large roof terrace of the community centre, which can be used as an additional lounge and events area in fine weather.

The function room combines modern kitchen facilities with an open and welcoming atmosphere, making it the ideal venue for a wide variety of events.



Workshop Rooms

Our spacious workshop facilities offer ideal conditions for printmaking, graphic design and ceramics. They can be hired for courses, workshops, projects and public creative activities, and are particularly suitable for clubs, initiatives, educational organisations and other groups.

A separate kiln room is also available for ceramic work, enabling ceramic projects to be carried out to a professional standard.

The workshop spaces provide the ideal conditions for collaborative creative work and offer a wide range of opportunities for artistic and craft activities. Whether regular courses or one-off events – the workshop spaces provide the perfect setting for creativity, exchange and collaborative creation.
